Objective

I'm passionate about web development! I've cloned static websites like education learning websites, other websites and created an online voting system project, which is a dynamic website. Currently, I'm working on a dynamic restaurant website. By making theese projects i know the importance of how to make websites more interactive and user-friendly. Web development excites me, and I'm eager to keep learning and building more projects.

Education

- **MARRI LAXMAN REDDY INSTITUTE OF TECHNOLOGY AND MANAGEMENT**   2021-2025
  Bachelor Of Technology(Computer Science And Engineering)

  SSC
  CGPA: 9.3

Skills

- HTML5
- CSS3
- BOOTSTRAP
- JAVASCRIPT
- ECMA SCRIPT(ES6+)
- REACT.JS
- Node.js
- Express.js
- Mongodb

Projects

- **Online Voting System**
  Online Voting System is a project which is an interactive and dynamic web application, here voters can cast there votes dynamically and the voter and participants datails will be stored in backend(MySQL)
- **User Management System**
  This web application provides a user-friendly interface for managing data through standard CRUD operations: Create, Read, Update, and Delete. It utilizes a local API for persistent data storage, ensuring quick and efficient data retrieval and manipulation. it allows users to easily interact with and manage their data within a contained environment
- **Restaurant Website**
  I am currently working on this project which is an responsive and user friendly interface. Customers can order there food .

Tools & Platforms

- Git & Github

Internship

- Web Development Intern, Next24tech Technology & Services
- Web Development Intern, VaultOfCodes
