SUMMARY

Full Stack Developer with hands-on professional experience building and shipping production-grade web applications using React.js, Nest.js, Node.js, and MongoDB. Hands-on with RESTful API design, component-driven frontend architecture, third-party integrations, and agile workflows. Comfortable working across the stack in fast-paced team environments with GitLab-based version control.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Bootstrap, Responsive Web Design, Cross-Browser Compatibility

Backend: Node.js, Express.js, Nest.js, RESTful APIs, JWT Authentication, bcrypt, Middleware Design

Databases: MongoDB, MySQL, Mongoose

Tools & Platforms: Git, GitLab, GitHub, Postman, Cloudinary, VSCode, Agile/Scrum

EXPERIENCE

Associate Full Stack Developer

Aug 2025 – Apr 2026

PatternLab.ai

Hyderabad, Telangana

- Built and shipped production features across the full stack using React.js, Nest.js, and MongoDB in an agile team environment.
- Designed and maintained RESTful APIs consumed by dynamic frontend modules, improving data retrieval efficiency and reducing average response latency.
- Developed reusable React component libraries that reduced time-to-implement for new UI features across the platform.
- Integrated third-party services and APIs to extend platform capabilities, delivering seamless end-user experiences.
- Participated in sprint meetings and daily stand-ups, maintaining clean version control practices with GitLab.
- Collaborated with cross-functional teams to translate business requirements into production-ready technical solutions.

PROJECTS

AuthApp | *React.js, Node.js, Express.js, MongoDB, JWT, bcrypt* | [GitHub](#)

2024

- Engineered a full-stack secure authentication system with user registration, login, and protected route access using JWT and bcrypt.
- Implemented token-based session management and encrypted password storage; reduced login validation time by 30% through optimized token lifecycle management.
- Applied middleware-based route protection and server-side input validation to ensure application security and data integrity.

User Data Manager | *React.js, Node.js, REST API, JavaScript* | [GitHub](#)

2024

- Built a full-stack CRUD application with real-time UI updates, dynamic form handling, and optimized React state management.
- Integrated a local REST API for seamless data persistence; reduced screen update delay by 40% through minimized re-renders and optimized fetch logic.
- Implemented clean component architecture separating concerns between data-fetching, state management, and presentation layers.

EDUCATION

Marri Laxman Reddy Institute of Technology and Management

Hyderabad, India

Bachelor of Technology in Computer Science and Engineering

2021 – 2025

- CGPA: 7.25 / 10
